### Anmerkung:

RSB liegt mit diesen Preisen eher im unteren Drittel im Vergleich mit anderen Anbietern in einem schwierigen und unüberschaubaren Markt. Diese niedrige Preisfindung führt notwendigerweise dazu, dass wir auf Preisänderungen unserer Vorlieferanten reagieren und die Tarife regelmäßig anpassen müssen. Diese Tarif-Anpassungen sind marktüblich, fallen aber sehr moderat aus. Im deutschen Festnetz sind dies in aller Regel hundertstel Cent für einen Minutentakt. Wir sehen RSB-fone auch nicht als Profit-Center, sondern eher als zusätzliche Service-Leistung zu den Angeboten unseres Kerngeschäfts: Stabile und schnelle Internet-Zugänge in schwierigen Gebieten zu schaffen.
